IEC 60060-2	High-voltage test techniques — Part 2: Measuring systems (2.)
IEC 60112:2003	Method for the determination of the proof and the comparative tracking indices of solid insulating materials ()
IEC 60227-1	Polyvinyl chloride insulated cables of rated voltages up to and including 450/750 V — Part 1: General requirements (450/750 1.)
IEC 60269-1:2006	Low-voltage fuses — Part 1: General requirements (1.)
IEC 60364-5-53:2001	Electrical installations of buildings — Part 5-53: Selection and erection of electrical equipment — Isolation, switching and control (5-53.)
IEC 60617	Graphical symbols for diagrams ()
IEC/TR 60664-2-1	Insulation coordination for equipment within low-voltage systems — Part 2-1: Application guide — Explanation of the application of the IEC 60664 series, dimensioning examples and dielectric testing (2-1. IEC 60664,)
IEC 60664-3	Insulation coordination for equipment within low-voltage systems — Part 3: Use of coating, potting or moulding for protection against pollution (3.)
IEC 60664-5	Insulation coordination for equipment within low-voltage systems — Part 5: Comprehensive method for determining clearances and creepage distances equal to or less than 2 mm (5. 2)
IEC 60695-2-11:2000	Fire hazard testing — Part 2-11: Glowing/hot-wire based test methods — Glow-wire flammability test method for end-products (2-11.)
IEC 60884-1	Plugs and socket-outlets for household and similar purposes — Part 1: General requirements (1.)
IEC 61000-4-2	Electromagnetic compatibility (EMC) — Part 4-2: Testing and measurement techniques — Electrostatic discharge immunity test (4-2.)
IEC 61000-4-3	Electromagnetic compatibility (EMC) — Part 4-3: Testing and measurement techniques — Radiated, radio-frequency, electromagnetic field immunity test (4. 3.)
IEC 61000-4-4	Electromagnetic compatibility (EMC) — Part 4-4: Testing and measurement techniques — Electrical fast transient/burst immunity test (4-4.)
IEC 61000-4-5:2005	Electromagnetic compatibility (EMC) — Part 4-5: Testing and measurement techniques — Surge immunity test (4. 5.)
IEC 61000-4-6	Electromagnetic compatibility (EMC) — Part 4-6: Testing and measurement techniques — Immunity to conducted disturbances, induced by radio-frequency fields (4. 6.)
IEC 61000-4-16:1998	Electromagnetic compatibility (EMC) — Part 4-16: Testing and measurement techniques — Test for immunity to conducted, common mode disturbances in the frequency range 0 Hz to 150 kHz. Amendment 1:2001. Amendment 2:2009 (4-16. 16. 0 150)
IEC 61210	Connecting devices — Flat quick-connect terminations for electrical copper conductors — Safety requirements ()

IEC 61545:1996	Connecting devices — Devices for the connection of aluminium conductors in clamping units of any material and copper conductors in aluminium bodied clamping units ()
ASTM D785-08	Standard Test Method for Rockwell Hardness of Plastics and Electrical Insulating Materials ()
8S 1363-1:1995	13 A plugs, socket-outlets, adaptors and connection units. Specification for rewirable and non-rewirable 13 A fused plugs (13 1.)
8S 1363-2:1995	13 A plugs, socket-outlets, adaptors and connection units. Specification for 13 A switched and unswitched socket-outlets (13 2.)
